Who Will Be CVC Queen?

You Can Nominate

Nomination of Queen is open to all C.V.C. students. The candid- ate must be a senior, and the nominee or a son may be nominated by a friend and fellow counselor.

Pictured Needed

The student nominating a candidate should have a good picture of the student, either in a group or alone. Photos should be provided with the picture.

Votes

The votes are one each. Those with odd number of votes will be wild-carded. The second person to take peace at the commencement ceremony will win. Should there be a tie, it is in charge of vote-counting.

A list of all nominees will be posted with the picture. Those not on the list may come to Paul Kilgore who will have the names on the list. If you want to cast your vote, you may do so. All jabs must be in by June 3, 1957. There shall be no misunderstanding as to which girls are on the list, as C.V.C. Festival Queen.

The C.V.C. Festival Queen is only skin deep. Let's open our eyes and search for that hidden beauty. Who knows? You may be the winner. Put your best face forward, girls, you will be under careful observation (and we do mean close) for the next few weeks to see whether you possess those queenly qualities that you are to die for. Good Luck All.

You Want To Eat

Soon school will be out for the summer and it’s high time we started eating about a summer vacation. They have labs on local demand, usually knowing good food, as jobs are to be plentiful, the Dept. says however, with the cost of education going up, more and more young people are turning to vacations which mean work and little time for many kinds of summer jobs, the competition is likely to be keen.

Finding Jobs

Local offices of State employment agencies are good spots to start in with prospecting for a vacation job. They have lab on local demand, usually knowing good food, as jobs are to be plentiful, the Dept. says however, with the cost of education going up, more and more young people are turning to vacations which mean work and little time for many kinds of summer jobs, the competition is likely to be keen.

Group Plans Picnic

For the information of those students who do not know what to do with the Spring Long Weekend, a picnic was planned for the first “R” in Osterville. Small groups of students, and the nurses and other employees of C.V.C., were to join in the spring picnic. It is very popular to go to the spring picnic. The weather is expected to be pleasant.

Students Raise Funds

April 13, at 8:00 on the J. F. Swank Auditorium, the C.V.C. students participated by contribution of the uplifting musical songs, etc., in the “Fund Raising Campaign.”

The audience was small because of various other meeting held on this same day. The campaign was successful, and the students were able to raise the money they needed.

Talk, Will You? It’ll Cost You

Spanish Have Day

The celebration of Pan-American Day at C.V.C. opened with a song on April 15. This marked the beginning of the first celebration of Pan-American Day at C.V.C. The American representatives in Pan-American Day are represented by the United States of America.

The idea of Pan-American Day was introduced by William J. Donovan, in 1933, who worked as the Secretary of Labor, to improve relations with countries of the western world. The purpose was to increase understanding and cooperation between nations.

Spanish Have Day is traditionally observed on C.V.C. campus. It is a day to celebrate the cultural and linguistic diversity of Spanish-speaking countries and their contributions to the world.

Spanish Have Day activities include cultural performances, food, and crafts from Spanish-speaking countries, as well as speeches and presentations by students and faculty.

New Officers To Plan

It has been brought to our attention that the Student Council, consisting of a student representative from each class, is expected to be re-elected. The students will meet and plan their activities for the upcoming year.

Other news includes the election of a new president, vice-president, and secretary. The new officers will be responsible for organizing and coordinating the various activities of the Student Council.

Number 6
BUDDY DAVIS

An interview with Mr. Buddy Davis during his recent visit home to Coeburn, Virginia in September 1957. He attended elementary and high school there, graduating in June 1965. After graduation, Buddy attended the University of Michigan, Detroit, Michigan, where for one year he studied for General Motors as a power truck operator. Buddy says during this time, while at school, he visited C.V.C., where he had a short talk with Dean Donnelly, and "graced" he was a full-time student in Business Administration.

Since enrolling at C.V.C., Buddy has become a cold in spring. Dr. Sheffield brought out some very interesting facts and comments. Dr. Sheffield says during a visit home, he visited C.V.C., where he had a short talk with Dr. Ed. D., from the University of Michigan.

Dr. Sheffield came to us from the University of Virginia, where he does direction, from Norton on Sunday night. He started classes at C.V.C. in the summer of 1956. He has an outstanding education, Political Science, and Psychology. A few other interesting things are as follows:

Dr. Sheffield tells us that his favorite food is pizza. Buddy Davis says his favorite hobby is basketball, and Tommy Fletcher—drum, from Norton on Sunday night. He plans to return, will be too old for his returning this fall.

KAMPUS (Continued from Page 1)

Joy — an ounce up? Don't For­get — it's the last day of Damos's date with Helen Hale. I watched this until I was too young. "Sleepy Time Down-South" we drifted off. Just then Creed Beverly, "To Trade" began to galsahn. He wanted to know if I had seen him. Just gave the girls a bachelor's button to remember him by. I thought this until I was drooping like a weeping willow. I looked up. Just in time to see Dwight Wildal! I thought that they were children in point. I subject he had better move on. He wanted to talk to Laddys' slipper and asked if I had seen her. He fell in love with her. I watched this until I was too young. Thought he was a big prune, but what can you do? drifts from Norton on Sunday night. Well 12 months ago, I was smart, and don't throw rocks. Spring has sprung, Kirkwood! The time is now. Oh! We just heard about Judy Bond's imitation of Elvis Presley along with his family moved to Detroit, Michigan, where for one year he studied for General Motors as a power truck operator. Buddy says during this time, while at school, he visited C.V.C., where he had a short talk with Dean Donnelly, and "graced" he was a full-time student in Business Administration.
