A Report From—

The Dean

Professor Olsen and I attended an Education conference in Washington, D.C., last week. I have been observing educational developments in the United States and I would like to share my thoughts with you.

The conference was organized by the National Education Association and it was attended by teachers, administrators, and educational leaders from around the country. The focus was on improving education in the United States and preparing for the future.

One of the main topics discussed was the importance of technology in education. There is a growing trend towards incorporating technology into the classroom to enhance learning. However, there is also concern about the equitable access to technology for all students.

Another important issue addressed was the need for better teacher training and development. The conference featured workshops on effective teaching strategies and innovative approaches to education.

I believe that these discussions are crucial for shaping the future of education in our country. As educators, we have a responsibility to be at the forefront of these changes and to work towards improving the quality of education for all students.

German Club News

In light of the recent developments in Germany, it is important for us to stay informed and engaged. Our school has a strong German Club, and we have been invited to participate in a cultural exchange program with a partner school in Germany.

The purpose of this program is to promote cultural understanding and foster international friendships. I encourage all interested students to join the German Club and participate in this exciting opportunity.

The club will be hosting a series of events and activities, including language classes, cultural presentations, and visits to local German-speaking communities. Members will have the chance to practice their German skills, learn about German culture, and make new friends.

I look forward to hearing from you about your interest in the German Club and the cultural exchange program. Together, we can make a positive impact on our school and our community.

Sincerely,

[Signature]

The Dean
**Alumni News**

By Paul Kilgore

Since the Alumni of Clinch Valley College of Virginia was first initiated, I

have I enjoyed attending the events of the Alumni concerning the import |

ance and duties of such an organization. The majority of those 

who have attended the meetings have found that such an organiza-

tion isn't for them. I have 

been concerned with various professional 

matters with room for Improve-

ment. The student body 

would have begun to look into 

the affairs, and James Upps has, 

informed opinions to spread, cer-

tainly in such a condition. 

In such a condition. 

The campus of Clinch Valley College is the only place where the 

AAUP Convention 

Representatives of the AAUP Convention 

Chapter of the American Asso-

ciation of University Professors attended a convention held by 

the group last weekend. March 14, 

in the Virginia Education Asso-

ciation building in Richmond. 

At the convention, the following 

advisory council was in attendance: 

Professor W. L. Wotton, Presi-

dent; Professor C. F. Robinson, Vice President; and Mrs. George 

Cook, secretary. 

Dr. William Paull, Faculty secretary of the AAUP, was the closing speaker, and he was 

the work of the AAUP and their efforts to increase the pres-

ence of college teachers. Dr. Mc-

Pareland, head secretary of the state Council of higher edu-

cation, was the after dinner speaker. 

The council is concerned with the welfare of college teachers or courses, and the state 

whom may be attended. 

The National office of the AAUP is currently working to set 

up a program for college teachers to receive 

a national representation on policy for their 

professional interests. 

The president, 

and so for now let us look at 

some other places which have 

over 1000 members. 

A troop of the girl scouts attended the AAUP and their efforts to increase the pres-

ence of college teachers. 

Dr. Mc-

Pareland, head secretary of the state Council of higher edu-

cation, was the after dinner speaker. 

The council is concerned with the welfare of college teachers or courses, and the state 

whom may be attended. 

Several days, but it has been 

confirmed that such a program would necessitate a large 

amount of work and some 

expense. The student body 

would certainly have to consider the cost 

and benefits of any organization upon 

such a plan. 

Without the assistance of the 

organizing thecrowd! 

Agree, thanks to James Lippa for his work on our new 

sign.
