A Major Book Review

The S. V. E. A. was called to order during the SVEA meeting. A committee was set up to call the meetings for the next year. The purpose of the SVEA meeting is to discuss the relationship between Davis and his generals. Davis was quite willing to have his generals plan and conduct their respective campaigns. The Confederacy lacked a set policy. One reason for that was Davis's failure to rule over his departments. It was considered bad for the Confederacy as a whole to have him in that position. Commander-in-Chief would allow others to run themselves while he occupied a position of power.

In summing up the value of this book one must consider the importance of the book. It is direct, straight forward in its method of presentation, concise and technical. It is well written, and it presents a good case for the preservation of the Confederate States of America. It also offers a solution to the problem of the War Between the States.

You Have Your Task

In a poem by John Milton a picture is presented of what knowledge is like:

Ode to Knowledge—Or for everything to which the mind is applied,
Thus bind it fast, and make a law to the world to stand: he who is perjurer in the sight of knowledge, even if he be your near kinsman, you will not be a virtuous man, he will perish as sinners perish:

So many people hope their children to grow up rich and happy and the problem of today, that they are totally unaware of what education is. It is far more important to me than the wealth which is the cause of so much trouble among the group. I believe in the open, honest, and free exchange of ideas and that a person who feels that he has learned something important is entitled to share his knowledge with others. And how much that black and white page is worth! It is not easy to live in this day and age and be a free thinker. I can write few these days because I have to think carefully about what I write before I put it on the page. It is a shame that so few are able to do so. I believe that every person should be able to think for himself and that he should not be controlled by others.

Esquires Ubique

Esquires Ubique is the name of the regular monthly meeting of the C. V. C. Student Body. It is held in the fall and spring each year. The purpose of the meeting is to elect officers, approve the budget, and discuss student affairs. The meeting is open to all students and is a great opportunity for them to voice their opinions and concerns.

Value Of The Humanist

In 1940 an honor system was introduced at C. V. C. This system was based on the principle that students should be responsible for their own actions and that they should be honest in their work. Students were expected to report any cheating that they observed. The honor system was successful in raising the standards of honesty and integrity at C. V. C. This system is still in effect today and is a great asset to the university.
