**CVC Students Excel At U.Va.**

March 1, 1961

Dean Archer Jones

Clinch Valley College

Wise, Virginia.

The Association Deans are pleased to announce that the Clinch Valley students we have selected from our campus to represent their exceedingly high number of "A" grades appear on their first semester's work. This is true of both of the eight Clinch Valley students now enrolled in the first semester. Three of the remaining four made at least 2.5. Only one student made less than 2.0. None of the group is on probation.

Even more heartening is the fact that these students have continued their superior performance at Clinch Valley, and have done well in their courses. All students took advanced mathematics, and several have mastered physics, and German. Without exception, they are studying subjects that we regard as challenging.
