Winning exhibits of the Science Fair held in the CVC gymnasium, March 13, 1965

Fair Hailed As A Success

The Twelfth Annual Clinch Valley Area Science Fair was held on Saturday, March 13, 1965, at Clinch Valley College in the Fred R. Groover Gymnasium-Auditorium. The exhibits were judged on the basis of creative ability, scientific thought, thoroughness of work, clarity and dramatic value. Judges were: Biological Division: Mr. Bruce Merrill, forest ranger, U.S. Forest Service; Mr. John Gilbert, instructor in biology, Clinch Valley College; Mr. W. Lee Boudro, professor of biology, C.V.C.; Dr. Joseph Straughn, M.D.

In the trunk of a car, along with several other exhibits and... alas, Merrill, forest ranger, U.S. Forest Parcely bounced out of the trunk when the cars stopped at Wytheville.

Merrill's exhibit consisted of parts of a 12-year-old oak tree.- The sign will be a brick and planter 85" high with 20" x 20" columns. This would relieve some of the old labs. This would relieve some of the old labs. This would relieve some of the old labs.

...the release of the new 12-year-old oak tree. Since the weather is favorable, it was mid-May before 123 had been accepted and this was the total number to be held on campus at once. It was in no later than March 25. These offices must get his petition in no later than March 25. These offices must get his petition signed on the problems that exist in the college. A new record in its history.

Don't Forget Co-Ed Open Discussion

Election of officers for next year's Student Council will be held April 4, 1965. They must be completed in about four weeks. Those students' interest in the study of Science in the high-schools of our area.

On March 2, the Forensic Club and the Youth Council of Clinch Valley College held an open discussion on the problems that exist in this area. The discussion was led by Mr. John Gilbert, professor in biology, Clinch Valley College, and Mr. Wilson, who was in charge of the discussion. They were carried on by the students. Quite a few good points about the poverty problem and it's solutions were brought up and discussed.

UNIVERSE SCIENCE FAIR

The conclusion of the second major event of the University of Virginia Science Fair at Salem that after a few years we were given the privilege of sending six of our exhibits instead of twelve.

One year a local boy, Joe Mize, worked for a Wise architect, who worked for a Wise architect, who worked for a Wise architect.

One hundred twenty-three new students have already been accepted for next fall, as compared with 41 the year before. In 1964 it was mid-May before 123 had been accepted and this was the total number of entering freshmen in 1964.

The additional new students may create some problems. Eight girls have applied for rooms in the dormitory, and there is not space. The lounge will be even more crowded now.

But some chances will help ease the crowding. The enrolling of students will proceed and will provide more study space as well as classrooms. Personality Of The Month
Our former editor, E. H. Blankenbeclier, daughter of Mr. and Mrs. D. C. Blankenbeclier of Wise, Va., is the wife of Mr. Jimmey Goforth on March 3 in Treson, Georgia.

Jone, who is a houseman, plans to continue school, but she is undecided on the school that she will attend after she graduates. However, he is presently teaching the sixth grade at the Wise Elementary School. He is uncertain of his future plans.

While at C.V.C., Jane was crowned Miss C.V.C. and is a member of the Spanish Club, R.U.D. and the M.E.A. In high school, she was a member of the Tri-Hi-Y, F.I.A., and the Glen Club.

We want to take this opportunity to wish Jane a very happy marriage.

Favorite Expressions

In the lectures during class now days, may take note of some words being repeated in an endless number of times. These words seem to work into the topic of discussion so well that I know that many of you don't realize it. Sometimes you can't even tell the way they are used. The accent put on them is what brings about the hearing of them so often. These little expressions are sometimes a favor­ite of the teacher or just a habit you will be surprised how following these words are used presently by our fa­mil­iar ones. Each one as "However", "Well-I'll", "I did", "He says that", "You know", "you used", "When we learn this, we can do lot of thing", "Okay", "This is not very difficult", "Why do, I win".

We can see why I didn't put any names. So when you go in class, pay attention and only listen for the favorite expression.

What's The Latest Fad?

O.K. - what's the latest cool, crassified feature story of the week - one that will grab the front of the class. Otherwise you have be open your eyes and look around. Not that I'm suggesting leg-warming, or anything, but it definitely suggests that somehow be­cause people's lings have happened to the female leg. Namely patterned stockings! And not only ones cove­red with funny triangles, squares, hearts and dots, but they are in living color—red, green, yel­low, burgundy, navy, and beige. And these are in everything from the shortest skirt to the longest wrap. And who can wear these lovely green and blue patterns? Well, even the slightest bit of nerve or voice. She might realize one thing, however, these stockings are designed to be lengthening. But, one mo­ment, even the slightly heavy-legged need not despair - the darker shades are amusingly slimming. Of course the black stockings will be able to rationalize length exces­sively at least even when wearing long slacks. And these stockings are being worn by women everywhere in everything from the shortest skirt to the longest wrap.

Winter has been a bad habit this year of being very cold one day and blazing sunshine the next. However, there have been a few days when those lovely leather boots and the beaver ren­ders were the greatest praise. And according to a certain doctor (though the physicians have never had to use them, we can don our sweaters, parkas, fringes, fashionable boots and go sitdream­ing in the sun alone. And when we go inside for hot chocolate, we shread the causes and wear comfortable warm in sweat shirts and stretch pants. We are comfortable, though, and if they get too comfortable, it doesn't make as much difference.

CVC Highlander Successfully Completes Season

With a winning record now 7-5, the CVC Highlanders ended a successful season by winning five of their last seven games. The victories were: Cumberland, Beckley, Three Rivers, VPI and Piedmont. The season's success was the result of a depth on the bench as well as the starting five, combined with the ability of Coach Roberts who was All-American at Emory & Henry College in 1958.

The members of the Highlanders this year were: Russell Baker, center; C.B. Johnson, Sandy Blackwell, guard; Dungannon, James Branson, forward; Foard, Smitty; Ernest Bryant, forward; Heward Green, Claytwood, James May, guard, Grundy; Bill Miller, forward; Oakwood; Gail McConnell, center; Dungannon, Bill Renfro, guard; Coeburn; and Hollie Smith, guard, Big Stone Gap.

The total number of points scored by the Highlanders was 1,916 compared with 1,194 points scored by the opponents. This gave them an offensive average of 87.1 and a defensive average of 78.4.

Among the individuals, Bill Renfro led the team with 298 points, averaging 18.5 points per game. George Baker followed Renfro with a total of 212 points, averaging 13.5 points per game. The third highest scorer for the team was Sandy Blackwell with 190 total points, averaging 13.5 points per game.

The three top rebounders were Russell Baker, with 148 rebounds and a 13.5 average; Ernest Bryant, with 139 rebounds and a 5.0 average; and James Branson, with 112 rebounds and a 4.1 average.

The scores for all the games were: 
- Cumberland: 63-24
- Cumberland: 63-22
- Cumberland: 63-17
- Cumberland: 63-13
- Cumberland: 63-10
- Cumberland: 63-7
- Cumberland: 63-6

CVC Matmen Close Out Season

Claymont College's Matmen closed out their 1965-66 season with an impressive 14-11 victory over Milligan. Claymont College was led by Paul Russell, and Sherman Summer, who received five points each for placing their opponents.

This was the first victory of the season for Claymont, who were beaten soundly by this same Milligan team two months ago. The match was very exciting with the teams really improved over the previous match.

Intramurals Have Re-opened!!

In the Gym
In looking back over the past athletic season, Coach Keo Wheeler was noting, "Congratulations are certainly due Coach Glenn Roberts and his varsity basketball team. To Coach Roberts not only for giving the CVC Valley the first winners basketball team in the history of this high school but also for the fine example he set for his players and the community. It proved that coaching can be done with quiet dignity and the absence of prudence and unnecessary yelling in the gymnasium was very refreshing. His enthusiasm and poise was reflected by the player's excellent record of the game against opponent, who was very often more of superior height. Very seldom will you find a person who can develop the stamina to wrestle for a long period of time, and it takes to start wrestling as a game to develop the stamina to wrestle for a long period of time. Last, but not least, the thought facing your regiment all of you is to be encouraged in terrify most students. 'Do you know where your courage comes from?'

The students thanked him for his splendid job.

Mary Graves and Steve Turner were of superior height. Very seldom will you find a person who can develop the stamina to wrestle for a long period of time, and it takes to start wrestling as a game to develop the stamina to wrestle for a long period of time. Last, but not least, the thought facing your regiment all of you is to be encouraged in terrify most students. 'Do you know where your courage comes from?'

The students thanked him for his splendid job.

work with a group of young men like my wrestlers for a long period of time you naturally grow very fond of each one of them - it was on and I am going to miss 'em."

Music At The Smiths

A new and interesting extra-curricular activity has been added to the Clinch Valley College program this year. This is the music session held bi-weekly at Mr. John Smith's apartment. The sessions were directed by Mr. Smith to attract someone interested in music whether they are authorities or not. The interested students and faculty gather informally at the Smith's living room and listen to recordings ranging from the beautiful Gregorian chants to the mellow voices of the New Church Minstrels. Although the accent is on classical music, contemporary music is supplied as well.

A history of music marked the beginning of the session, starting with the Gregorian chants and proceeding to Elizabethan music and the "classical" music of Bach, Beethoven, Strauss, and the ever-popular Rachmaninoff.

Midway through the evening, requests were served at which time ten students requested recordings from Mr. Smith's large record library. Some of the various requests included: Grockowsky's "An American in Paris," Tchaikovsky's "The 1812 Overture," and Ravel's "Bolero." The different artists listened to include the aforementioned as well as Juan Goytisol, Carmen, Herr, Harnon, Bob Dylan, and many others.

A program of jazz has played an important role in the clinics, a better physical education system.

This was the third session for the German Club meeting of the year for CVC and the faculty. It is hoped that these visits will continue in the future. All is well, a good time was had by all and the meeting adjourned with the note to meet in Norfolk on March 30th.

New Members in Circle K

The Circle K club of Clinch Valley College is honored to have taken into membership the following students:

Garry McDanel
Nellie Smith
Wes Dake
Wayne Hall

All of these gentlemen will join the rest of the club at the District Convention in Norfolk this year. This brings the membership of the club up to 18. These new members are awaiting acceptances pending arrangements travel to and from home on Wednesdays. We welcome the gentlemen, and hope that they will enjoy their association with the Circle K club.

Taxation - - -

On Thursday, February 11, 1965, Mr. Cornell Jacobs gave an informative and helpful lecture on "Taxation and the Individual." This lecture was one of a series of events scheduled for Clinch Valley College. Mr. Jacobs spoke on the Federal Budget and how it is distributed among the various departments. He stressed the importance of knowing about the Federal Budget, the Internal Revenue Service, and the Internal Revenue Service Office for the Federal Government. The tax laws concerning income, wages, and salaries are explained in the lecture. The importance of the tax laws concerning income, wages, and salaries is stressed in the lecture. Physical Education

since you were wished that you were "young" again and back in grade school soon so that you could pay all of these little games that you used to enjoy? If so, you should know that there is one for all of the women's physical education classes.

The class has been studying how to organize a class to play games and relays. Below are some of the games that we have been playing:

They also studied different patterns that can be used in organizing the class for relays. Some of these include the line, zig-zag, and snake formation. This adds to the variety of the relays that can be played.

There was much excitement during these particular class periods, and if it had been open for the public, I'm sure there would have been a huge crowd standing by to watch these particular class periods, indicating how to organize a class to play games and relays. I'm sure there would have been a huge crowd standing by to watch these particular class periods, indicating how to organize a class to play games and relays.

Director Secretary says that the results of the meeting showed that Clinch Valley students more educate in college, a better physical education program, and more revenue to expand and improve Virginia's education system.
