The Highland Cavalier

Discipline Committee

Mr. Conestoga, the new Dean of Students, who came originally from Georgia, has attended universities in both Knoxville and France and has taught German at Athens- More, a university near Paris. He expects to return there next year to continue teaching German, Mr. Conestoga, as he finds C.V.C. very pleasant because of its small size, friendly people, and the opportunity it affords to become acquainted with each student personally, plus the music and literature.

The other addition to the language department is Mr. Humberto Trujillo. Mr. Trujillo joined the faculty this year as a visiting professor in Spanish. Mr. Trujillo, a native of Bogota, Colombia, has received his M.A. degree in language and philosophy. He has taught at the University of Kansas. Mr. Trujillo and Visconti, who are now residing on campus, are new students on campus row.

New Students Appointed to Discipline Committee

Mr. Conestoga and Mr. Gary Graham were recently appointed as student representatives to the College Discipline Committee, according to Dr. Chester Russell, Dean of Students. Other members of the Committee who were appointed last year and who will continue serving are Mrs. Helen Lewis and Mr. Richard Beaulieu in history and philosophy and Mr. Richard Hoover, Committee Chairman.

The student representatives of the Committee are selected by the student from the students who are recommended by their professor.

The role of the Discipline Committee is to be made up of students and faculty which do not fall under the jurisdiction of the Honor Court.

If you meet someone with a smile, give them yours.

CVC Abroad Program

Walking along the Seine River in Paris, visiting old but uniquely beautiful castles in England, doing the countryside in the Alps... The "C.V.C. Abroad" program, directed by Dr. Russell, has been started last year by Clinch Valley College and is open to students, who show potential and interest in the foreign language preference. If you are interested, come to the office of Dr. Russell to make plans for going abroad. This program was financed by Admiral F.D. Bell, a former President of the United States. The program has been placed on reserve in the library and the contributions of the students who have come to the office will be divided among the students who are interested in reading them.

The Youth Council's Big Brother-Sister Project

As a meeting held on Tuesday, October 4, 1966, in the Youth Council, the Council discussed the possibility of continuing the Big Brother-Sister project which was started last year. In this project, the Youth Council and any other students who wish to participate will visit the children Saturday afternoon in tutor, play with them, and be a "buddy" to children in the Eustis area. The value of this project to children is to prove the value of the unknown but all students are more sophisticated and actually enjoy helping them.

Several people are interested in the project. Anyone who is interested in participating in this project, the Council and any other students who wish to participate will visit the children Saturday afternoon in tutor, play with them, and be a "buddy" to children in the Eustis area. The value of this project to children is to prove the value of the unknown but all students are more sophisticated and actually enjoy helping them.

The value of any course can be measured by subtracting from the sum total of the course at the advantage and experience at the end of the course. We call it the degree and experience which he already possessed when he started. Unfortunately, that if a course is of value, it must contain much that is new and atmosphere. Knowledge may no longer be of the unknown but all students are more sophisticated and actually enjoy helping them.

Blowing In The Wind

The great days of automobiles! Too bad that it has been replaced by matchless machinery. It's a fall of the cigarette machine and candy machine that one can imagine.

A vote of thanks to Gary Tickes for the fine job done in the big idea. The Clinch Valley College Debate Team is at work on a research on this season's debate topics: "Foreign aid. We,iosity is something.

The first University Film Series: "The Man Who Walked Through Walls," was well-attended. The audience was in awe, although the comedy appeared a little slow.

The next in the series is El Dorado which will be shown on Thursday, November 2. This has been the idea of the finest film ever made.

The New York Times describes it as "Honest and unadulterated, strikingly realistic and yet genuinely tender.”

Good Luck

Highland College

Although basketball season is more than a month away, the basketball team for next year is shaping up. The Highland College team for next year is expected to be one of the best in the state.

The team has already acquired two players from the previous season. The team is expected to have a few new additions soon.

Life As We Know It

Tired of sitting in the dorm staring at four walls of brick and mortar? Why not consider a career in advertising? Not only is it a fun and fast-paced job, but you can also work from home! Advertising agencies are always looking for new, creative minds to join their team. If you are a creative and resourceful individual, consider a career in advertising today.

Eye-Spy A Movie!

Dr. Martin Petersen, the new chemistry professor at Highland College, announced that the college has received several prestigious awards. The awards are given to the college for outstanding contributions to education.

The awards will be presented to the college's president at a special ceremony next month.

The Highbury Hotel

The Highbury Hotel is now accepting reservations for its new wing, which is scheduled to open next month. The hotel has also announced that it will be offering a new menu, featuring local cuisine.

The hotel is located at 123 Main Street, Highland, and can be reached at 555-1234.
Who does not love wine, women, and song remains a fool his whole life long.

Let every man mind his own business!

How troublesome is day!
It calls us from our sleep away!

There's nothing like being used to a thing.

Glad, I think the interpreter is the hardest to be understood of the two.

He was fresh and full of faith that something would turn up.
