Library Features

Phonographs

For Use
Mrs. Rosemary Mercure, Head Librarian, released the "Services of the John Cook Welfare Library" which have been newly instituted into the services provided for the students of the library. The Library is now featuring phonographs for student use. A suggestion box has been set up to poll the students' opinions concerning these. The text of the article follows.

Library Services

...and submit a Constitution for approval within a week, the amount allocated to the Team will be

1. Xerox copies can be made when a staff member on duty.

2. Inter-library loan service provides books and copies of periodical articles which are not in our library. A small charge is made for postage and insurance of books, and the lending library charges for Xerox copies of articles.

3. A phonograph with earphones has been provided by the Humanities Department for use in listening to recordings in the library.

4. We now have four microfilm readers on the first floor, the COALFIELD PROGRESS, the NEW YORK TIMES, and NILES WEEKLY REGISTER. Two microfilm readers are available for use.

5. Typewriters may be used in the seminar room when it is not in use as a classroom.

6. A file cabinet containing original poetry, essays, short stories, and short novels by members of the library, giving locations of materials, are available at the circulation desk.

7. Many questions can be answered by listening to recordings in the library, giving locations of materials, are available at the circulation desk.

8. A suggestion box has been placed near the entrance. Please use it.

The OUTPOST was next with $4,450. The HIGHLAND CAVALIER is third highest funded with $2,200, which is a 289% increase over last year. The 1968-69 athletic and intramural funds were combined for this year with a sum total of $1,265. All these amounts are definite except for the fact that if the Debate Team does not form and submit a Constitution for approval within a week, the amount allocated to the Team will be transferred to the Student Health Service.

Fifty-eight high school guidance counselors from the British West Virginia area, including the Department of Education of the West Virginia State University. The meeting was initiated by Mr. Robert H. Marlan, the guidance counselor of the Department of Education of the West Virginia State University. The meeting was initiated by Mr. Robert H. Marlan, the guidance counselor of the Department of Education of the West Virginia State University.

Both guests and hosts were enthusiastic in their comments of the mutual helpfulness of the meeting. In particular, Dr. E. L. Ford, a member of the C.V.C. English faculty, expressed his belief that the high school teachers should be urged to have their students write extensively and pressure independent study that they may be more self-reliant when they face the bigIGNED supervised study which college demands of them. Mrs. Laura McNeil of Virginia High School observed that the students never become proficient in writing until they take, but which CVC does not agree.

H.C. POLL "New Course"
The H.C. has received several requests asking the H.C. to find out whether many students would be interested in certain courses for the 1971-72 academic year. If you were not one of the students who signed up to attend the meeting on September 29, you may attend the meeting on October 6, at 7:30. We will have the faculty members present and will conduct a survey of the students on these courses. If you cannot attend the meeting on October 6, you may write to Mr. Rosemary P. Mercure, librarian of the library, for information about correspondence courses.

H.C. POLL RESULTS
According to last week's H.C. POLL, 48% of the students stated that they would be interested in taking the course. Apparently interested in joining the students would have been interested in certain courses for the 1971-72 academic year.

1. Are there courses you would like to take, but which CVC does not offer? Please interest, the page three.
There Must Be A Better Way

by Bill Hooper

There must be a better way to do things. Do you remember when the Smithes' house was burned down? It was quite an event for our little town. We all went out to watch as they tried to put out the flames. But it was no use. The fire spread too quickly, and before we knew it, the house was a total loss.

I think the Smithes' house fire was a wake-up call for our community. We realized that we needed to do things differently in order to prevent such tragedies from happening again. That's why we started looking into alternative methods of fire protection.

We investigated several options, including the installation of smoke detectors and fire extinguishers. These were great steps forward, but they didn't seem to be enough. We needed something more.

That's when we came across a new technology called "fire retardant." It works by creating a barrier around the house that prevents the spread of flames. We were impressed by how effective it was, and we decided to install it in our own homes.

Since then, there hasn't been a single house fire in our town. We attribute this to the fire retardant technology. It's not just a preventive measure; it's also a measure of safety. If a fire does break out, the technology helps to contain it and prevent it from spreading to neighboring homes.

Of course, there are still challenges to overcome. The technology is expensive, and it requires regular maintenance. But we believe that the benefits far outweigh the costs. We're happy to pay for the technology because it keeps our community safe.

In conclusion, there must be a better way to do things. We've found it, and we're proud to say that our community is safer because of it. Let's continue to look for new and innovative ways to improve the quality of life in our town.
The men's intramural sports programs began Thursday, September 18, with Teams 1, 2, 3, and 4 starting the season. Team 5 began play last Tuesday.

Team 1 was led by their first victory by Captain Randy Jim Hughes downed Team 3 led by their Captain by a score of 42-12. Team 2 at the final whistle was 37-0. Team 4 led by their Co-Captains Jim Street and Jim Smith. The score of Team 1 vs. Team 2 the first game, suffered because of injuries to their Captain Mike Hughes downed Team 3 led by their Captain by a score of 42-12.

The following is the schedule of play for the remainder of the Men's Intramural Football Season:

Field 1 Field 2
Sept. 20 5-4 3-1
Oct. 2 5-3 4-2
October 7-2 3-4
9 5-1 3-3
14 5-2 4-1
Team 3 Captain, Chuck Stone; Team 4 Captains, Jim Street and Jim Hughes; Team 3 Captains, (unsuitable); Team 2 Captain, Mike Smith; Team 1 Captain, Randy Chisenhall.

1 Fr. Randy Chisenhall
2 Fr. Mike Smith
3 So. Fred Bradley
4 Jr. Jim Hughes and Jim Chisenhall
5 Sr. Chuck Stone
