Foul Play In The SGA

The Highland Cavaliers

Dear Dwight (Editor):

I thought it was interesting that you referred to the recent SGA elections in your last issue. You mentioned that some candidates were accused of being "crooks" without any substantiation. I believe it is important to discuss these issues in a responsible manner.

Several days later, on the morning of Wednesday, October 10, I was confronted by the late Mr. Harris, an SOA member, at the student center. He asked me if I knew what charges were pending against me. I told him I didn't know, but I was going to keep my ears open to what was being said. Mr. Harris then said, "I have been told that there are charges against you. I will not say what they are because the SGA will not announce the charges until the investigation is complete."

I am writing to you to request that you clarify your report. It is important that the students be informed of the charges and the process of investigation. This will allow us to make informed decisions.

Sincerely,

Mercure Questions Advertisement

Dear Editor:

I noticed that your advertisement in the last issue contained a number of questions that were not clear. I am writing to request that you provide more information about the advertised product.

The questions concerned the features and benefits of the advertised product. However, the answers were not clear and did not provide enough information to make an informed decision.

I would appreciate it if you could provide more information in the future.

Sincerely,

[Name]

An Erasable Bond—

The Highland Cavaliers

Dear Editor:

I would like to comment on the recent article in the Highland Cavalier about erasable bonds. The article stated that erasable bonds are a new type of bond that can be easily erased or rewritten. However, I believe that this is not true.

Erasable bonds are not a new type of bond. They have been around for many years. The article did not provide any evidence to support the claim that erasable bonds are a new type of bond.

Sincerely,

Weekends Termed "Boring"

By Betty Smith

"Boring! Boring! Boring!" That is how some students feel about the weekends. They are bored, unsatisfied, and frustrated. What can we do to make the weekends more enjoyable and interesting?

One suggestion is to organize more social activities on campus. The current activities are limited and often lack participation. To improve this situation, students should come together and plan events that cater to their interests and preferences. This could include movie nights, concerts, or even outdoor activities like hiking or biking.

Another idea is to encourage students to explore the community beyond campus. There are many interesting events happening in the area, such as concerts, festivals, or sporting events. Encouraging students to attend these events can broaden their horizons and provide a break from the daily routine.

Incorporating more cultural activities can also make the weekends more enriching. Organizing trips to museums, art galleries, or historical sites can expose students to different perspectives and spark their curiosity.

Lastly, involving students in decision-making processes related to the weekend activities can increase their engagement and satisfaction. This could involve selecting the events or planning the activities themselves.

In conclusion, by increasing the variety of activities, encouraging community exploration, and involving students in decision-making, we can make the weekends more enjoyable and fulfilling for everyone on campus.

If you have any suggestions or ideas for improving weekend activities, please feel free to share them. Together, we can make the weekends more exciting and worthwhile.
Harrell Comments On Men's Basketball Team

By Jerry Kilgore

The 1978-80 Men's Basketball team was announced in last week's edition of the Highland Courier and Coach Frank Harrell a comment on each player was achieved. The basketball team has six returning players. Coach Harrell was pleased to have all returning and he is pleased to have the leading varsity team. The returning players are Wayne Swartout, Jack Gibbs, Johnny Carneal, Johnny Moore, and Mark Schifflin.

Wayne Swartout, a junior, averaged seven points per game last year. He led the Cavaliers with 103 assists. Harrell said, "Wayne is extremely competitive and can be characterized by his hard-nosed and aggressive play on both ends of the court."

The last senior on the squad is Jack Gibbs. Gibbs averaged five points a game last year but possibly could have had more scoring opportunities. He was named first team all-conference in the first half of the year due to his hard work, he encourages others to do so also. "An exceptional leader with an uncanny shot clock" can describe Johnny Carneal, a 6-4 sophomore from Covington, according to Coach Harrell said, "Carneal's untapped ability, if developed, can make him a great player."

Mark Schifflin, 6-4, should be the Most Improved Player according to Coach Harrell. "Mark is a very dedicated hard-working player. He always works hard to make what he does right."

Steve Moore, 6-4, has an "outstanding shooting ability with a quick release from any part of the floor" according to Harrell. Harrell said concerning Steve's average last year was a great 14.6. Among Moore's honors, he was selected to the All-HCAC Freshman Squad. Harrell said, "Steve has worked hard to improve passing and ball handling."

The last returning player is Mark Schifflin, 6-4. Schifflin started as a freshman and did an excellent job as a reserve last year. Harrell stated, "Mark is a hard-working player with a great understanding of the game. His excellent attitude aids in making him a great player."

"Mike Allen, 6-4, side the team with exceptional quickness and understanding of basketball," according to Harrell. "He overcomes his stature by working exceptionally hard. He does an excellent job quarterbacking." Playing basketball at Miami University, 6-4, should be awarded the Most Improved Player according to Coach Harrell. "Mike is an excellent shooter. A dunk leaving from the foul line is one of his achievements. Mike will be a great offensive player."

As a great team to the notes should be the number two scorer in the Kentucky Junior College Conference—David Adams, 6-4. Harrell commented, "David is an outstanding shooter and has ability to be an excellent passer. He has a lot of desire to be great."

Doug Moore, 6-4, comes to CVC with the Lone Pine District Player of the Year Award resting on his shoulder. Harrell stated, "Doug is an exceptionally talented player with a great awareness of where everyone is on the court. He has the ability to be great for CVC."

A good description of Joe Hawkins, 6-4, would be an excellent basketball player according to Coach Harrell. "Joe has worked hard to develop his game. He doesn't come back away from any challenge. The nation's number one high school has a player represented at CVC. Mike Patrick, 6-4, comes to CVC with a great background in basketball. Harrell stated, "Mike is a fantastic leader. A dunk leaving from the foul line is one of his achievements. Mike will be a great offensive player."

According to Coach Harrell, "Reggie Byrant, 6-4, has the ability to be the big man to every player at CVC. In addition Harrell stated, "Reggie needs to iron out some 3-point shot. The fee for part-time admission is $5.00."

The English Club wUl meet on the following dates:
